About us

Local Mobility is a British company who have been helping to improve customer's day to day lives since 2009. Grown from a family run business to a national company offering lifestyle enhancing products and services throughout the UK. With a showroom based in Leigh, Lancashire we strive to offer the best customer service which includes a dedicated after-sales service. We are registered members of the British Healthcare Trades Association and Approved by Trading Standards UK.

A style to suit every need

With 4 different designs to choose from, the Local Mobility range offers a wide choice of walk-in baths to suit every customer and every bathroom. Whatever style or size of bath you require, Local Mobility is your first choice with a solution to suit every need. So whether you're looking for a compact bath for a small bathroom, a maxi bath for a larger user, or an integrated bath and shower, the Local Mobility range provides the ideal solution.

Manufactured to the highest standards in a UK factory

Every Local Mobility bath is designed, hand crafted and fully inspected in a UK factory to ensure the highest standards of quality and reliability.

With almost 30 years' experience in designing and manufacturing high quality walk-in baths to meet the demands of domestic and care home environments. That's just one of the reasons why Local Mobility baths are recommended by the Arthritis Foundation for their ease of use. In addition, all our baths are backed by our comprehensive manufacturer's warranty.

Pre-sales service and support

Our experienced team provides a comprehensive pre-sales service including specialist advice to help you choose the walk-in bath that best suits your requirements, plus pre-installation guidance to assist you in selecting the right bath for your home.

An outstanding package of choice, quality and exceptional value

Whatever your needs, Local Mobility can provide the ideal solution in an outstanding package of choice, quality, reliability, service support and value for money. We're confident it's absolutely unbeatable!

Guide to our walk-in baths

With so many configurations, our walk-in baths are suitable for most environments or bathing needs. From unusual bathroom layouts including small or en-suite bathrooms or the simple replacement of a standard tub, our walk-in bath range has something suitable for most requirements.

At Local Mobility we understand that no two situations are ever the same, which is why we have a range of accessible bathing products and offer pre sales service to ensure you select the right package for you and your bathroom.

Why choose Local Mobility for your walk in bath?

Local Mobility baths are designed with the user in mind. The bathing experience is thought out completely, we feature some of the lowest step thresholds in the market so getting in and out of the bath is as safe as possible.

For comfort and safety our bath taps are thermostatically controlled to prevent scolding whilst filling and one of the most important aspects of a walk-in bath, the door seal, is guaranteed for life.

Are walk in baths easy to use?

Our walk-in baths are designed to be used by people of all ages or declining mobility helping people stay in their own home longer. Buttons, doors and handles are tested to ensure simplicity for everyone including sufferers of varying conditions such as arthritis.

Easy-access steps and doors

With some of the lowest step in doors on the market, accessing our walk-in baths has never been easier.

We offer a choice of both inward and outward opening doors depending on the size or layout of your bathroom as well as right and left handed options.

All of our baths feature our specially designed leak-free seals which are guaranteed for life.

Compact walk-in baths

Smaller compact baths are available, suitable for en-suite bathrooms or where space is at a premium. Both the Rosebery and the Palmerston offer the same features of our other baths but come with a smaller footprint.

All dimensions are shown in the brochure, but for more information, please contact one of our walk-in bath advisors **FREE on 0800 012 4257.**

Do walk-in baths leak?

A lot of people worry about the possibility of the door seals leaking on walk-in bath. This can be a problem with some of the poorer quality brands on the market, but Local Mobility have carefully selected baths with excellent design from manufacturers with over 25 years experience and therefore are so confident in the quality of our products that our door seals come with a lifetime guarantee.

Manufactured in the UK

All of our baths are designed and manufactured in our dedicated UK factory based in the West Midlands. This ensures the highest levels of quality and reliability; we do not import ANY of our bath range, this allows us to offer exceptional technical support for all installation and ongoing maintenance queries.

PELHAM

£2895

Excluding VAT*

**PRICE INCLUDES
STANDARD FITTING**

Similar in shape to a traditional style bath, the Pelham full length walk-in bath also delivers the added convenience of an easy access bath.

Its side door provides a low-level walk-in entry to the user, reducing the mobility needed to access the bath, and slipping risks due to an incorporated slip-resistant material at the base of the tub.

Our Pelham bath has been especially designed for users with a slightly reduced mobility, who can sit down and stand up independently, and prefer a traditional lying down bathing position to a more upright seated one.

The Pelham walk in bath's inwards opening side door is fitted with the latest leak-free system, reinforced with an external locking mechanism.

Due to its full length, the Pelham bath is particularly suited for larger bathrooms, and can also be used as a conventional bath by other members of the family.

Keep your overhead shower and have best of both worlds.

This luxurious walk-in bath, its smooth design and elegant line, will ensure a comfortable and relaxing bathing experience.

Key Features:

- Two length options (1500 & 1670mm)
- Unobtrusive design
- Low-level access
- Slip-resistant base
- Leak-free door with lifetime seal guarantee
- Inward opening door
- External locking mechanism
- Left or right hand options

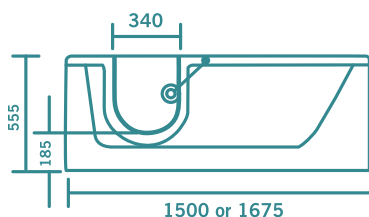

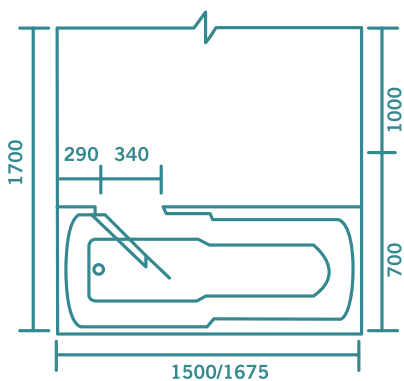

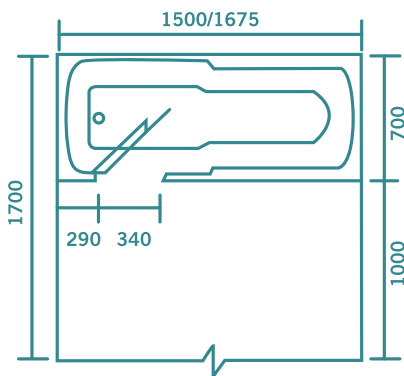

*VAT exemption may apply if you suffer from a long term illness or disability please call for further details.

When you should consider this model:

- When conventional bathing is preferred to seated bathing.
- When a conventional bath is being replaced or the bathroom is of larger proportions.
- When the user is able to lower and raise themselves without need of assistance.

SPECIFICATIONS

Overall Length:	1500 or 1675mm <small>*Allow 15mm extra per end panel</small>
Overall Width:	700mm
Overall Height:	555mm
Capacity:	210/220 litres
Step height:	185mm
Door Width:	340mm

The bath comes **complete** with standard fitting, thermostatic mixer valve 22mm, filler tap, plug, chain and waste.

ROSEBERY

£2995

Excluding VAT*

**PRICE INCLUDES
STANDARD FITTING**

Elegant easy-access, low-entry bath with door.

The Rosebery, available with a left or right-handed door offers an easy-access, walk-in bathing solution.

One of our most popular low-entry baths, its integral seat also ensures a comfortable upright position for the bather.

The Rosebery allows you the comfort of a bath or shower without the need to lie down or remain standing. The sophisticated design

looks the part in any bathroom and replaces the need for grab rails or uncomfortable shower chairs.

A compact bath that will fit neatly in any bathroom, with a minimal footprint giving you more space than a traditional bath would have previously taken.

Perhaps you have an en-suite where space is at minimum, or you would prefer an upright bathing position, if so the Rosebery is for you.

Key Features:

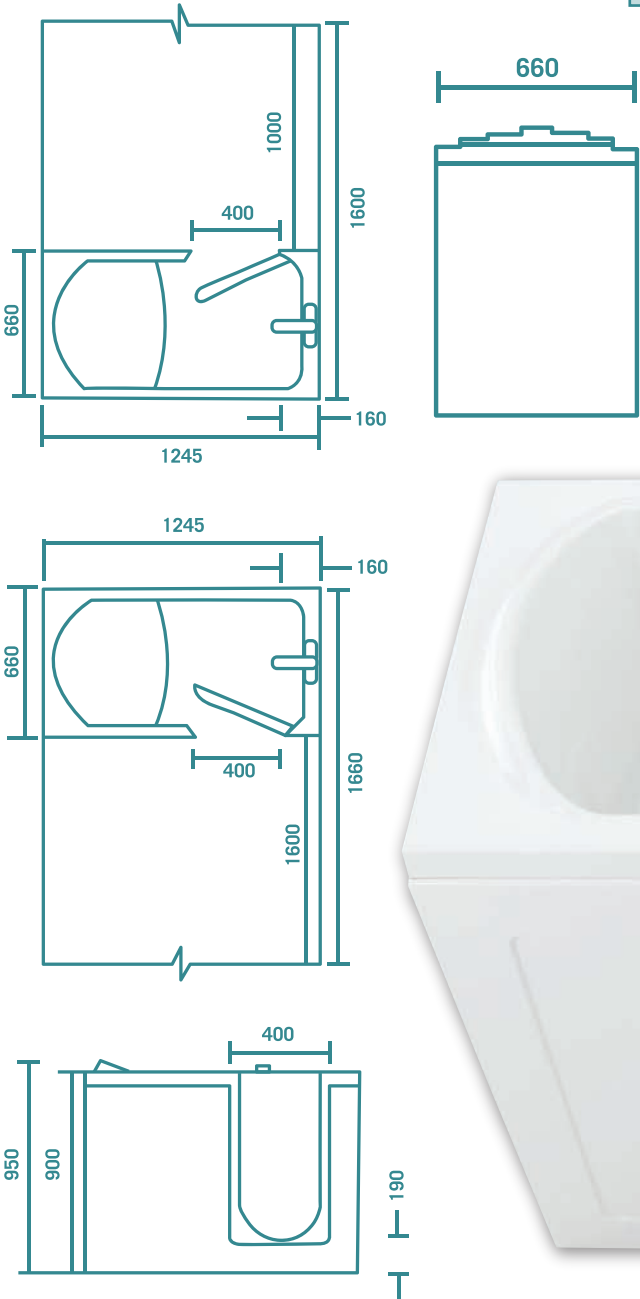

- Modern, elegant design
- Low-entry bath
- Slip-resistant seat and base
- Leak-free door with lifetime seal guarantee
- Inward opening door with side access
- Internal locking mechanism
- Left or right hand options

*VAT exemption may apply if you suffer from a long term illness or disability please call for further details.

When you should consider this model:

- When seated bathing is preferred to conventional bathing
- When a low-entry step is required for easier entry and exit
- When an inward-opening door is preferred if space is restricted

SPECIFICATIONS	
Overall Length:	1245mm
Overall Width:	660mm
Overall Height:	900mm
Capacity:	246 litres
Step height:	190mm
Door Width:	400mm

The bath comes **complete** with standard fitting, thermostatic mixer valve 22mm, filler tap, plug, chain and waste.

PALMERSTON

£2995

Excluding VAT*

**PRICE INCLUDES
STANDARD FITTING**

A deep and wide walk-in bath with low-level step for easy entry

The Palmerston walk-in bath is designed to fit in the space of a traditional bath but it's generous depth allows for a more comfortable bathing experience.

The integral seat also ensures a more upright position for the bather, this takes away the need to bend down to lower levels take strain away from the back and knees. Take your favourite book and relax in the comfort of your elegant bathroom.

With a similar style to the Rosebery, The Palmerston has more width and a shorter length so dependent on your bathroom style we can accommodate to suit the space available.

With a bigger capacity and taller surrounds the Palmerston allows for a luxury soak with plenty of space.

Combine with a shower head for easy hair washing whilst sitting comfortable on the slip resistant seat.

Key Features:

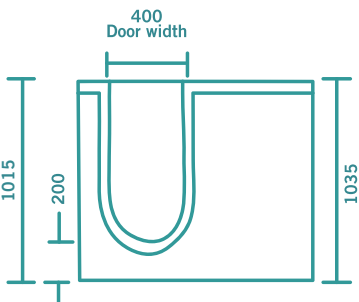

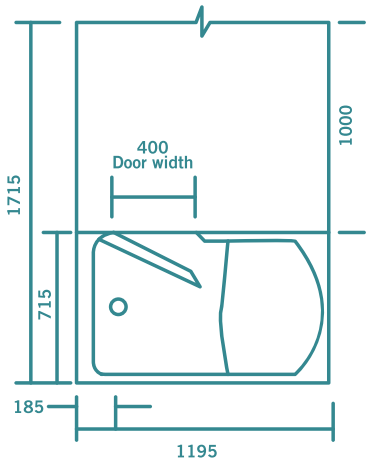

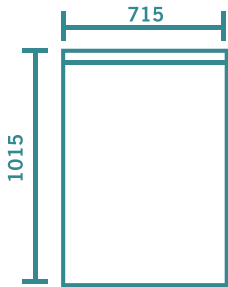

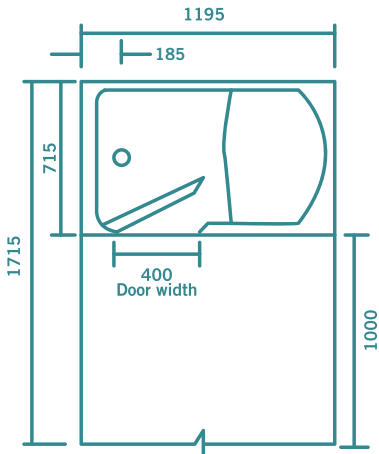

- A broad bath for a deep soak
- Low-level access
- Slip-resistant seat and base
- Leak-free door with lifetime seal guarantee
- Internal locking mechanism
- Inward opening door with side entry
- Left or right hand options

*VAT exemption may apply if you suffer from a long term illness or disability please call for further details.

When you should consider this model:

- When seated bathing is preferred for added comfort
- When a conventional bath is being replaced
- When a low-entry step is required for easy entry

SPECIFICATIONS	
Overall Length:	1195mm
Overall Width:	715mm
Overall Height:	1015mm
Capacity:	300 litres
Step height:	200 litres
Door Width:	400mm

This bath comes **complete** with standard fitting, thermostatic mixer valve 22mm, filler tap, plug, chain and waste.

ASQUITH

Optional
Extra Power
Seat

£995

£3995
Excluding VAT*

**PRICE INCLUDES
STANDARD FITTING**

Key Features:

- Modern, stylish design
- Low-level access
- P-shaped design provides an enlarged showering facility
- Full-height two-piece glass door
- Optional Extra Powered seat lift assists entry and exit
- Seat can be easily removed if required
- Leak-free door with lifetime guarantee
- 1700mm length options
- Battery back-up facility
- Soft-touch seat lift controls
- Left or right hand options

The Asquith is a versatile and practical disabled bathing solution with walk-in bath facility, enlarged showering area due to the P shape of the bath and optional extra powered seat lift to help raise and lower the bather.

An ideal 1700mm full length P shape walk-in bath and shower combination particularly convenient when assistance is required to enter and exit the bath, and when a conventional lying down bathing position is preferred to a more upright seated one.

The Asquith easy access bath is most appropriate when a shower option is also needed, and is particularly fitted for larger bathrooms.

Its optional extra powered seat lift is ideal for assisted entry or exit using the provided lift control.

The full length of the bath tub makes the Asquith easily usable for other users, the powered seat also being removable for additional space inside the bath.

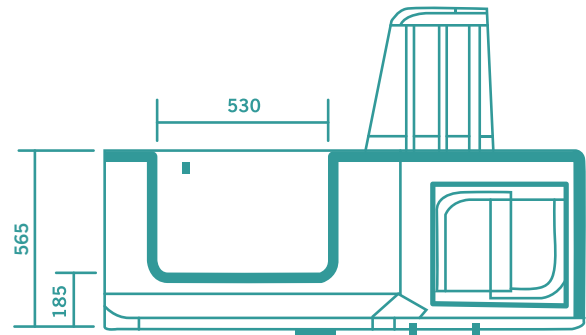

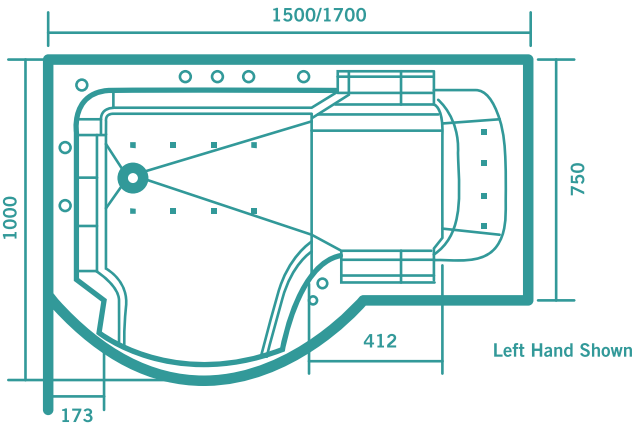

*VAT exemption may apply if you suffer from a long term illness or disability please call for further details.

When you should consider this model:

- When bathers need that extra assistance with entry and exit
- When a shower option is also required
- When conventional bathing is preferred to upright seated bathing
- When a conventional bath is being replaced or the bathroom is of larger proportions

SPECIFICATIONS	
Overall Length:	1500mm / 1700mm
